MARKET COMMENTARY

August proved pivotal for the Philippine fixed income market driven by record issuance, easing inflation, and the BSP's third rate cut of the year to 5.00%. U.S. inflation showed signs of moderation, influencing market expectations of a September Fed rate cut. Locally, robust demand supported a record ₱507 billion issuance, with strong participation across key maturities, while GDP growth surpassed expectations at 5.5%. Inflation accelerated slightly to 1.5%, prompting the BSP to maintain a balanced easing stance. Yields declined across the curve by 16 bps amid benign inflation and positive market sentiment. The market remains attractive for duration extension, especially in the 7- to 15-year segment, although global developments and U.S. monetary policy remain key sensitivities.
